Project extension – Platt Street

Hunter Water is rehabilitating our stormwater network in Waratah, which involves replacing over 300 metres of a stormwater culvert located near you – along Platt Street, Waratah. We have engaged a contractor, Abergeldie Complex Infrastructure (Abergeldie), to carry out the work on our behalf.

Extension to project completion

Work on Platt Street is continuing, however due to some difficult and unexpected service relocations along with complex ground conditions, the project is expected to extend into **late January 2025**.

We thank you for your ongoing patience during this work.

Please see the map on the next page for the location of the ongoing work, road closure and bus stops that will continue to be affected.

How will this affect you?

Access along Platt Street will continue to be restricted at times however access to properties will be maintained. The traffic controllers will also remain onsite to assist.

The below changes previously communicated will also still be in place, with:

- **temporary full closure of a small section of Platt Street, with no traffic between Dulling Street and the roundabout at Turton Road**
- temporary closure of two bus stops on Platt Street between Dulling Street and the roundabout at Turton Road (see signage at bus stops)
- temporary removal of some parking near the work area
- restrictions on driveways in the work zone (we will liaise directly with affected residents)
- traffic delays for short periods during the work
- reduced speed limits of 40km/h
- construction traffic signs and traffic control personnel assisting with vehicle movements, pedestrians and cyclists
- construction workers, trucks, equipment and vehicles in the area during standard construction hours of 7am to 6pm Monday to Friday and 8am to 1pm on Saturday.

Contact us

We are here to help and answer any questions you may have about the project. Please call Jane Sullivan at Abergeldie Complex Infrastructure on 0475 049 130 or email cpcommunity@abergeldie.com
